## **MONTHLY ACTIVITY REPORT**

**MAY 2016**

***"YOUR SAFETY ... OUR COMMITMENT"***

## **SUMMARY**

The goal of the Operations Report is to provide a summary of the El Dorado Hills Fire Department response performance for each month. The report currently evaluates the Alarm Statistics by each response zone, looks at Code 3 Response Times, evaluates Turnout Times, and describes the different types of calls that the Department responds to monthly. Every call is evaluated by the Operations Chief each month. Any call with an extended response time or an extended turnout time is researched and corrective action is taken if needed.

Collection of data for this report is a manual process at the current time. You will note that this month the Alarm Statistics page has the information consolidated (no sub-districts), the Code 3 Response Time Analysis page is broken into rural and suburban areas. You will also note that there are three new columns giving the percentage of time we arrived on scene under eight, seven and six minutes (turnout and travel times only). We are unable to track call processing times.

## **INTRODUCTION**

The attached budget is the recommended Preliminary Budget for fiscal year 2016/2017. As per statutory requirement, the Preliminary Budget must be adopted by June 30, 2016 and the Final Budget must be adopted by September 30, 2016.

## **BACKGROUND**

The proposed Preliminary Budget was developed with the participation and input from the Director of Finance, all Chief Officers, and Staff. The funding philosophy for this budget remains consistent with prior years in that a portion of the various Fund Balances is identified to fund a portion of the expenditures. This meets the objectives of maintaining the District on a progressive track and provides for continuing growth and efficiencies.

For purposes of this preliminary budget, Staff has assumed a property tax revenue increase of 6% over prior year. This percentage will be adjusted prior to the adoption of the Final Budget once final estimates from El Dorado County have been published.

## **SUMMARY**

The Budget is currently broken down into three separate funds: the General Fund, the Capital Replacement Fund, and the Development Fee Fund. Below is a summary of each fund:

### **General Fund**

The General Fund provides for all ongoing expenditures to maintain the District's continuing operations. These expenditures include personnel costs, supplies, services, governmental fees, and other miscellaneous operating costs. Generally, this portion of the budget includes those operating expenditures that are recurring and routine. To maintain a strong fiscal balance, the general operating expenditures are funded from recurring operating revenues.

The Board recently adopted a District Reserve Policy that establishes guidelines for maintaining a minimum balance in the General Reserve Fund equivalent to at least ½ year operating expenditures. The budgeted ending General Reserve Fund balance exceeds this goal.

### **Capital Replacement Fund**

The Capital Replacement Fund supports reinvestment in the infrastructure of the District. Generally, these investments are in the replacement or necessary improvement of fleet and facilities that exceeds routine maintenance. All District capital expenditures are budgeted in the Capital Replacement Fund for fiscal year 2016/17.

It the recently adopted District Reserve Policy, a goal was established to contribute to the Capital Replacement Fund annually to ensure the balance is sufficient to replace, repair, or restore the District's capital assets at the end of their useful lives. There are no budgeted contributions or transfers to this fund in fiscal year 2016/17.

## **Development Fee Fund**

The Development Fee Fund is used to account for all restricted Development Impact Fee Revenue and qualifying expenditures. Fund expenditures are restricted to capital investments resulting directly from growth in the District. Qualifying expenditures are determined and approved in advance as a part of the District's 5-year Capital Plan, which is updated and reviewed by El Dorado County on a periodic basis.

## **Reserve Fund Balances**

The District continues to closely monitor and control expenditures in an effort to preserve its reserve balances. The Preliminary budget reflects an overall increase in total reserve balances for fiscal year 2016/17. The General Reserve Fund is budgeted to increase by \$45,609, as operating expenditures are budgeted to be slightly less than operating revenues. There is a significant budgeted increase in the Development Fee Reserve Fund of \$1,362,500 resulting from higher projected development fee revenue than qualified expenditures. There is an offsetting decrease in the budgeted Capital Replacement Reserve Fund balance due to budgeted capital expenditures of \$955,125.

The District has loaned from the General Reserve Fund to the Development Fee Fund in prior years, which is being paid back over time. Any money not spent on new development from this fund will be used to pay back the General Reserve Fund. The District continues to see increased revenue from Development Fees due to growth.

## **Revenues**

Revenue projections are primarily based on an estimated growth rate in the District's assessed value. This estimate will be provided by El Dorado County prior to the preparation and approval of the Final Budget. For purposes of the Preliminary Budget, an estimated 6% growth rate in property tax revenues was used. Also included in operating revenues are projected JPA reimbursements in the amount of \$919,537. The JPA funds the ambulance service in the District. Mutual Aid/OES revenue is also included at an estimate at \$412,000. This revenue is dependent on the extremity of the wildland fire season and the Department's participation on strike teams. While the District continues to pursue grant funding for various projects and cost items, no such revenue is projected for the 2016/17 fiscal year.

## **BUDGET PROCESS**

In an effort to ensure that all considerations have been given to this decision process and to allow the public to engage in the budget development, it is anticipated that the Board of Directors will meet at the regular Board meeting and solicit public input prior to the budget's adoption.

## **RECOMMENDATION**

Staff recommends that the Board of Directors review, discuss, and approve the 2016-2017 Preliminary Budget.

## **2016/17 BUDGET – GENERAL FUND**

### **SUMMARY OF SIGNIFICANT CHANGES FROM PRIOR YEAR BUDGET**

#### **REVENUES**

A growth estimate of 6% from the County's prior year assessment was used in determining Property Tax Revenue. This estimate will be adjusted based on the projection received from El Dorado County. Fire Prevention Fees increased \$30,000 from prior year and were budgeted based on actual collections in fiscal year 2015/16. Contributions/Grants decreased from the budget in prior year as there are no known grants in the pipeline for fiscal year 2016/17. JPA Revenue increased by \$114,537 or 14% as a direct result of higher budgeted JPA expenses (offset). Rental Income is expected to increase in 2016/17 due to a new planned cell site at Station 85. Other Miscellaneous Operating Revenue includes annexation fees, workers' compensation reimbursements, and other miscellaneous revenue collected. The decrease of \$81,000 from prior year's budget due to uncertainty of future earnings in this category. Asset Sale Proceeds of \$35,000 were budgeted to account for the planned auction of surplus vehicles.

#### **WAGES & BENEFITS**

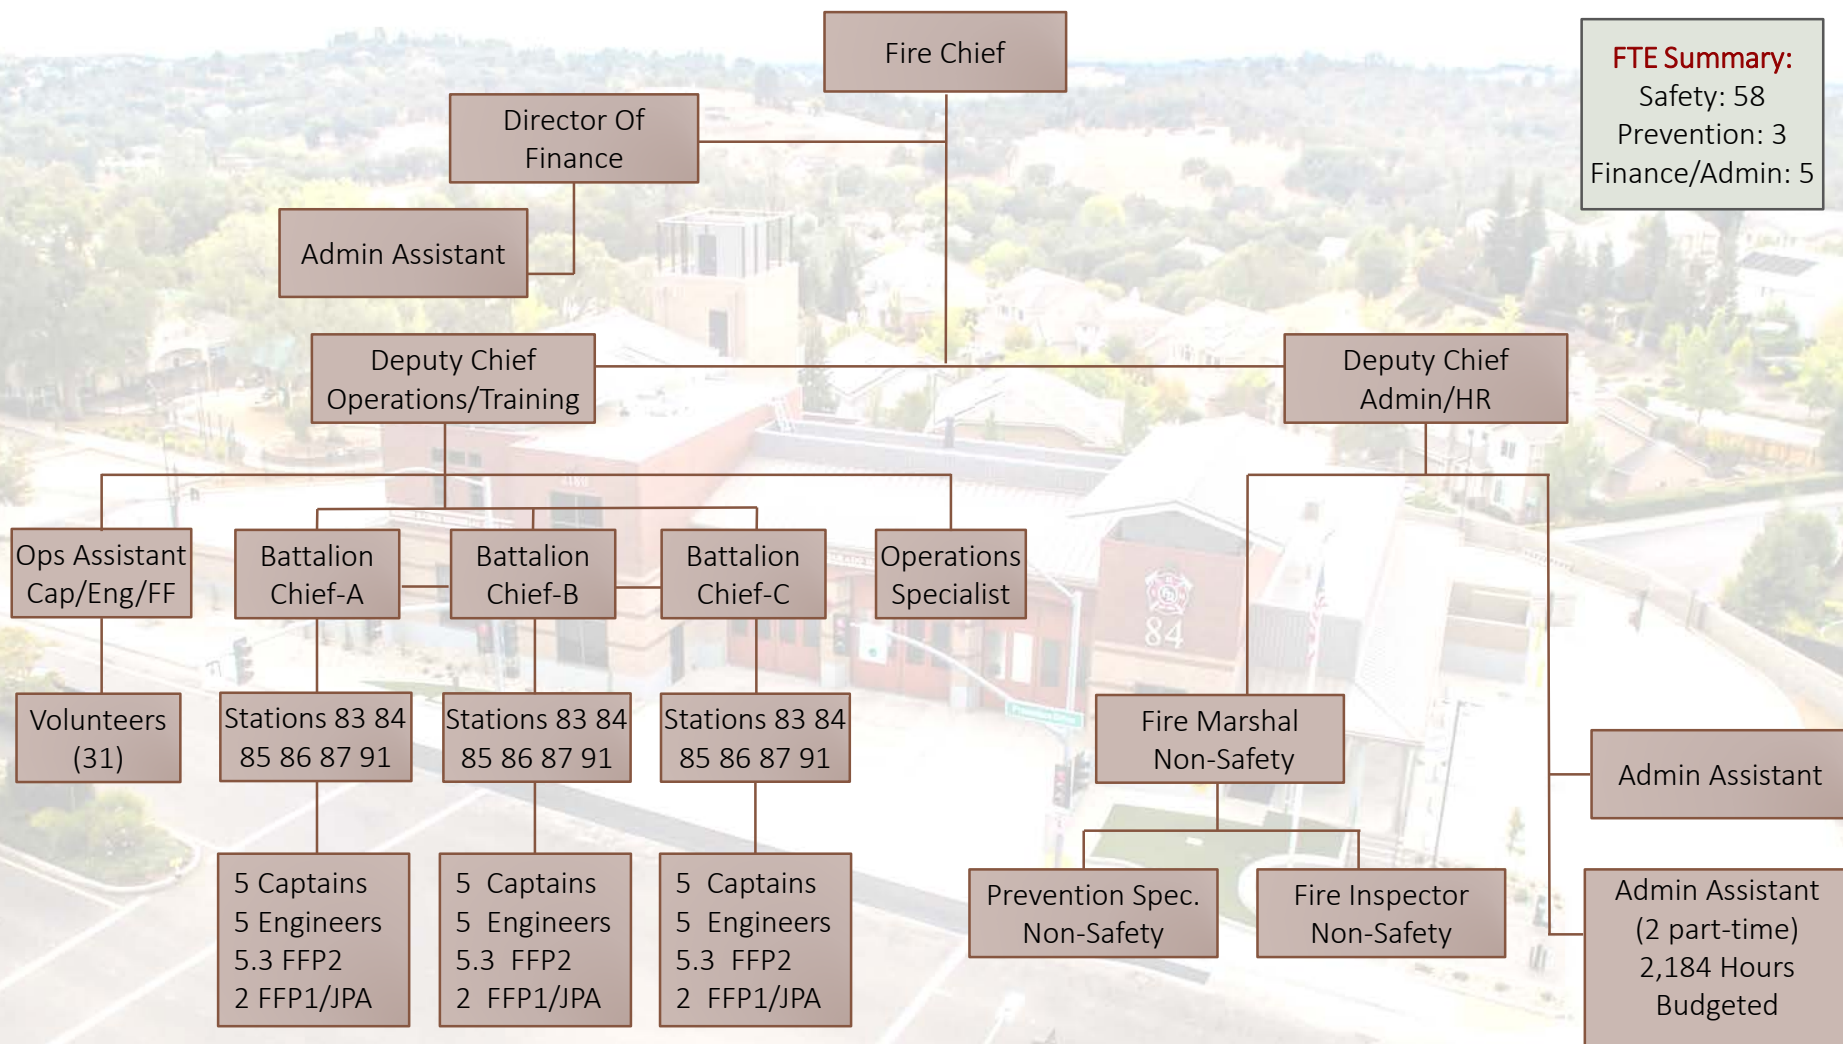

Wages & Benefits were budgeted based on the District's current approved staffing levels and the negotiated labor contracts in effect for fiscal year 2016/17. Base pay rates for most Safety personnel are projected to increase at a rate of ½ the property tax revenue growth percentage. Based on the property tax revenue growth rate of 6%, a 3% pay increase was budgeted for these positions. A 2.5% COLA was budgeted for Administrative staff as per the negotiated contract in place. There were also increases in budgeted Education/Longevity pay due to a combination of contract changes, an increase in headcount from the prior year, and increased years of service for existing staff. The budgeted increase in Overtime is due to the planned pay rate adjustment as well as other contract changes (fixed FLSA). While PERS pension expense rates continue to increase, the budgeted PERS Retirement expense is relatively flat compared with prior year. This is due to an offsetting increase in employee contributions. The increased budgeted Health Cost from prior year is primarily due to an increase in headcount. There is also a significant increase in the Health Cost of Retirees, which is due to an increase in the required lump sum payment toward the District's unfunded liability and the budgeted addition of two retirees.

#### **OTHER OPERATING EXPENDITURES**

Overall, there is a slight decrease in other operating expenditures from the prior year budget. There is an increase in Clothing and Personal Supplies due to the negotiated increase in uniform allowance. The budgeted cost of General Insurance decreased from prior year due to the change of carriers in 2015/16. The Professional Services category was broken down further into several new categories for 2016/17 in an effort to increase transparency. Newly created categories include Network/Connectivity, Software/License Subscriptions, IT Support/Implementation, and Public Relations. Combined, there is a decrease in the budget for these categories due to non-recurring special projects that were included in 2015/16. The budgeted increase in Rents & Leases is mostly due to the new solar lease contracts executed in fiscal year 2015/16, which results in offsetting savings in Electricity costs.
